

DIGITAL PRODUCTION CHALLENGE 2013 – CASE STUDY N.3

SYNOPSIS

"Sex can save the world" – this is the creed of one of Berlin's most mystifying NGO's called F*ck For Forest: an organization that raises money for the environment by selling home-made porn on the Internet.

Meet Danny, a troubled soul, as he discovers this exuberant and colorful world where sexual liberation merges with global altruism. Never fearing adventure, he joins the group and quickly reveals in extravagant fashion both the hopefulness and absurdity of their cause.

From the streets of Berlin to the depths of the Amazon, Danny and his comrades are on a body-liberating, planet-saving mission to buy forest land and save the indigenous peoples from the sick, sick west.
